

↘ The Job Safety Analysis Manual

The *Job Safety Analysis Manual* is essential reading for anyone involved in preparing a JSA, or anyone else wishing to improve their JSA implementation process.

The *JSA Manual* provides sections on the process required to complete a good quality JSA and the process required to complete a Preliminary Risk Assessment.

The core section of the *JSA Manual*, however, contains over 40 technically correct and practical JSAs covering a wide range of 'everyday' jobs occurring in the global oil patch. The pre-formatted JSAs include the following types of jobs:

- » Work at height;
- » Excavation work;
- » Work in confined space;
- » Hot working;
- » Manual handling;
- » Work around suspended loads; and
- » Work with pressurized equipment.

Each completed JSA in the *JSA Manual* provides a "check list" for Supervisors and Operators to test their own JSAs against.

Developed at the request of Hess Corporation – the leading global independent energy company – this Manual is the result of over 10 years' research and practical field-based implementation.

It should be provided to every Supervisor and Operator working in the oilfield.

About the Author

Dr. Graham Marshall is a Registered Psychologist and a member of the Australian Psychological Society (APS). He holds a Master of Psychology, PhD, and OHS Diploma.

Graham has over 15 years' oilfield experience working in EHS promotion. He has published numerous books and papers and presented at an array of EHS conferences. He has also worked on a wide variety of EHS programs and projects promoting safer workplaces and better risk management to an international network of "blue-chip" customers.

Graham's contribution to EHS improvement was recently recognised with a Western Australian Government WorkSafe Award. This prestigious award was presented "in recognition of an outstanding contribution to safety and health in the workplace".

Dr Graham Marshall receives a WorkSafe Award for his work from the Rt Hon. John Kobelke whilst Mr Don Sanders (Director, APPEA) looks on.

Publication details

- » Paperback
- » Full colour in Portrait format
- » 103 pages + cover
- » Authored by Dr Graham Marshall
- » Published by Risk Tool Box
- » First edition published in 2009
- » Current Edition Number 1
- » Product Dimensions are approximately A4 size portrait page layout)
- » Product weight approximately 0.5 kilograms
- » Price AUD \$45 + GST
